PROFESSIONAL SUMMARY

Motivated BCA (Data Science) student with hands-on experience building web applications and productivity tools. Comfortable working at the intersection of AI, automation, and web development — with practical knowledge of generative AI tools including ChatGPT and Claude. Competitive mindset demonstrated through hackathon participation and a 2nd-place finish at a national IoT Ideathon. Actively seeking internship opportunities in tech, AI, operations, or startup environments where I can learn fast, contribute meaningfully, and grow.

EDUCATION

SGT University – Bachelor of Computer Applications (BCA) – Data Science

Aug 2025 – May 2028

- ▶ Relevant Coursework: Data Structures & Algorithms, Python Programming, Web Development, Introduction to AI/ML
- ▶ Active participant in tech fests, hackathons, and innovation challenges on campus

PROJECTS

Lead Generator Web App | HTML, CSS, JavaScript, AI-Assisted Development

2025

- ▶ Designed and shipped a full-stack lead generation tool using AI-assisted development workflow, reducing build time by leveraging prompt-driven iteration
- ▶ Implemented dynamic form handling and lead capture UI optimized for conversion — applicable to early-stage startup use cases
- ▶ Source: github.com/AtulSharmx/leadgenerator

Daily Focus Tracker | HTML, CSS, JavaScript

2025

- ▶ Built a browser-based productivity tool to help users manage daily tasks and focus sessions — inspired by GTD and time-blocking methodologies
- ▶ Implemented task creation, session tracking, and progress visualization features entirely with vanilla JS (no frameworks)
- ▶ Source: github.com/AtulSharmx/Daily-Focus-Tracker

Password Generator | HTML, CSS, JavaScript

2026

- ▶ Developed a client-side secure password generator with configurable length (8–64 chars), uppercase/lowercase, numbers, and symbol toggles
- ▶ Implemented clipboard copy functionality and strength indicator — zero external dependencies, fully browser-native
- ▶ Source: github.com/AtulSharmx/password-generator

Age Calculator | HTML, CSS, JavaScript

2025

- Built a responsive, mobile-friendly age calculator computing precise age (years, months, days) from any date of birth input
- Focused on edge case handling (leap years, month-end dates) and cross-browser compatibility
- Source: github.com/AtulSharmx/Agecalculator.io

SKILLS

Languages: HTML5, CSS3, JavaScript (Vanilla) | Python (Beginner) | C (Beginner)

AI & Automation Tools: ChatGPT, Claude (Anthropic), AI-assisted development (prompt-driven coding), Generative AI workflows

Developer Tools: VS Code, Git, GitHub, Android Studio (Basic), Chrome DevTools

Concepts: Responsive Web Design, DOM Manipulation, Productivity Systems, Basic Data Structures

Soft Skills: Fast learner, problem-solver, startup-friendly mindset, remote-work ready

CERTIFICATIONS

University of Michigan – Coursera – *Programming for Everybody (Getting Started with Python)*

Dec 2025

- Completed foundational Python course covering variables, conditionals, loops, functions, and data structures

OpenAI Academy × NxtWave – *Generative AI Mastery Workshop – India's Biggest GenAI Buildathon*

Sept 2025

- Hands-on training in practical LLM applications, prompt engineering, and AI-assisted product building

ACHIEVEMENTS & ACTIVITIES

Ideathon 8.0 – ACIC SGTU / NITI Aayog AIM – *2nd Place – IoT Theme*

2025

- Secured 2nd place in the Internet of Things category at a national-level innovation challenge backed by NITI Aayog's Atal Innovation Mission — competing against engineering teams across the university

Elite Hack 1.0 – Global Online Hackathon – *Participant – Team Codewarrior*

2025

- Competed in a global hackathon with 7,500+ participants across 900+ teams — one of the largest online coding events of 2025

Techfest Pradarshan 5.0 – *Participant – Treasure Hunt*

Apr 2026

Synergy 2025 – Inter-College Science & Technology Fest – *Participant*
